

## CHEST COMPRESSIONS

AS A  
HEALTH CARE  
PROFESSIONAL

### How Well are You Doing Them?

Ambu® SmartMan® is the world's first Intelligent Manikin Solution. It integrates the latest advances in Computer Technology with a manikin. It shows you how well you are doing so you know immediately how you should adjust your performance.

Test Your Skills on SmartMan® In 10 minutes you can Measure & Validate Compressions

#### Ever Wonder ... ?

- how well perform when you have to save a life?
- whether you are doing the right thing?
- if you should have proof you are doing what you are supposed to?
- if what you do makes a difference?

#### Facts

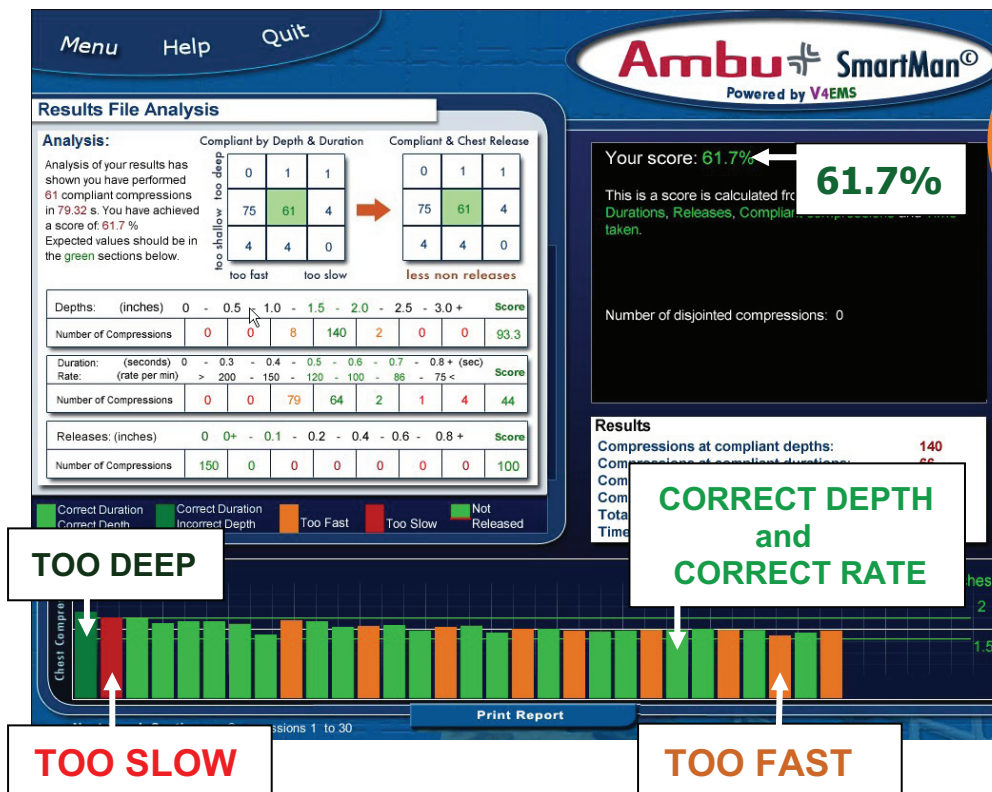

The latest studies show that the quality of compressions you perform has a direct effect on the survival chances of a victim. If you do not perform chest compressions correctly, you are not providing the victim with the best quality of care possible.

With Ambu® SmartMan®, you will know how to perform correctly. You will be confident that you are performing correctly. You will KNOW that your intervention will make a difference.

Perfect Your Skills on SmartMan®! An easy to understand bar graph shows you, as you press on the manikin, how well you are doing. Full detailed analysis is available for you to look at later. It accurately measures proper Rate, correct Depth and Full Release of the chest. And it will give you an overall percentage score.

AND BE  
ABLE TO  
PROVE IT!
